

SYSTEMS SLIDING SYSTEM

for GLASS DOORS TP, TO
interior doors

SPAZIO SLIDING SYSTEM FOR GLASS DOORS.

Made of anodized aluminum, it is a complete solution designed for a finished jamb. The set includes a running rail with a straight or oval blend and elements designed for hanging a sliding glass panel and a bottom limiter.

There are two options of Spazio System (only difference is in the shape of external blende):

- Spazio TP – with straight blende
- Spazio TO – with oval blende

PRICE

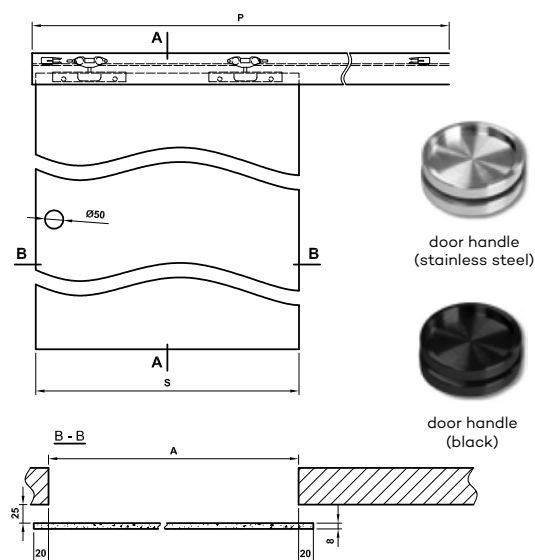

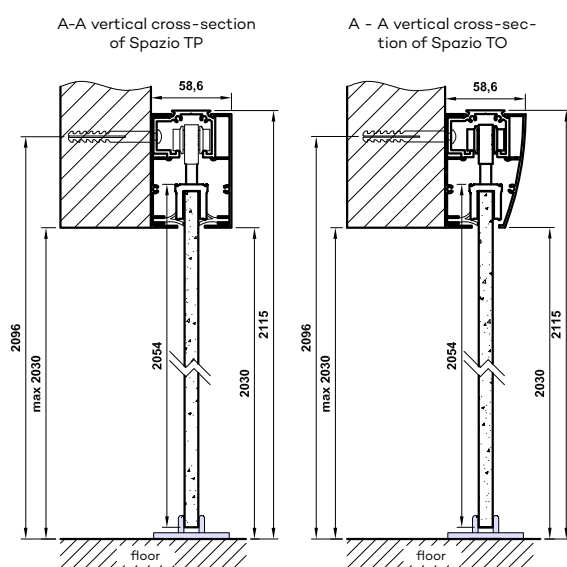

- Price of the sliding system in aluminum color for glass doors
- Price of the sliding system, color black anode for glass doors

To complete the whole system it is recommended to buy glass door leaf in sliding version from Galla collection. There is designed for this solution round handle.

OPTIONS AVAILABLE WITH EXTRA CHARGE

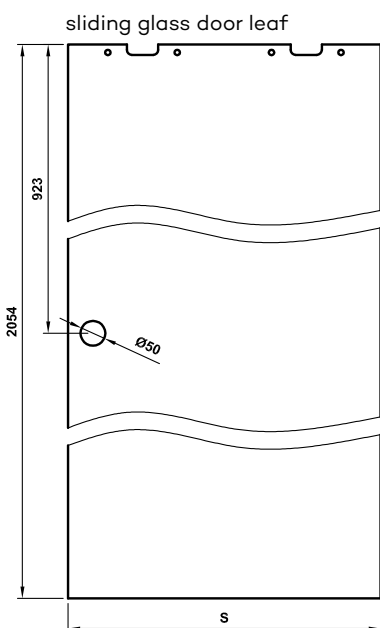

- door handle (two-sided)

Note: There is no possibility to make ventilation option.
